

You've spent time thinking outside the box Do you know what's inside the box?

Think outside the box

Does supply chain security keep you up at night? Is the task of applying for C-TPAT too daunting? Or is it that you have neither the time nor the staff to tackle this project?

At Global4PL, we are able to stay up at night for you. With offices and experienced personnel in strategic geographical locations, we can assist with your origin sourcing initiatives and operations as they relate to, and even outside of C-TPAT. We can assist in helping you apply for, get certified, and even represent your company during the important validation phase of C-TPAT membership.

Look at what's inside the box

Our experts have helped various US importers in attaining C-TPAT membership. We will implement a program whereby you will gain full cooperation with your vendors, manufacturers, carriers, and various other parties. Even if you wish not to apply for C-TPAT, you'll have a set of recommendations to help improve the overall security of your supply chain.

For a free assessment of your company's state of readiness for C-TPAT, give us a call. We'll give you our honest opinion. And if you want to know more about other government programs or ways to help reduce your overall transportation spend, we'll be happy to oblige.
